

IT'S ABOUT TIME

Telling Time to the Hour and Half-Hour

After reading and discussing the children's book, "Tick Tock Telling Time," children will have fun practicing their telling time skills in a variety of ways with this fun activity!

Kathleen L. Stone

kathleenstone.com

How you plan on using this activity will determine how you prepare your materials:

♥ *Go Fish*

Mount both the clock faces and time cards on construction paper and laminate.

Children can play with a partner, matching the clock time to the time card.

♥ *Memory*

Mount both the clock faces and time cards on construction paper and laminate.

Children can play individually (place cards in equal rows, face down – turn over two cards at a time and try to match cards).

♥ *Mix-n-Match*

Mount both the clock faces and time cards on construction paper and laminate.

Children walk around the room quietly, handing their card to whomever they pass – at a given signal they stop, look at their card, and quietly find the person with their matching card – they stand back-to-back once they have found their match

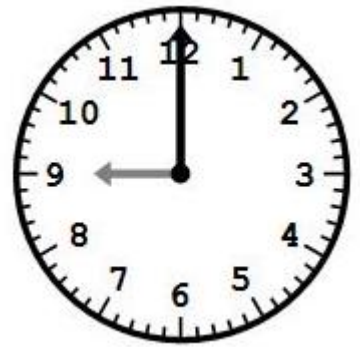

♥ *Quiz, Quiz, Trade*

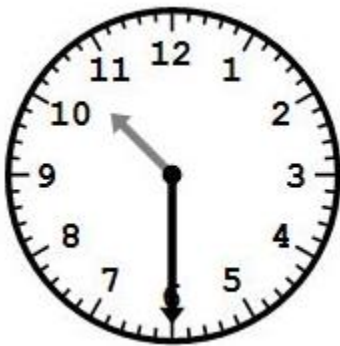

Mount the clock faces on the front side of your construction paper card and time cards on the back side ... laminate.

Children walk around the room quietly finding a partner to work with. Partner A shows their clock card to Partner B who tells what time the clock show. Partner B repeats the process with their card. If they are correct, they trade cards and find a new partner to quiz.
