

MATTHEW'S BAKERY TRAYS

Multiplication Arrays

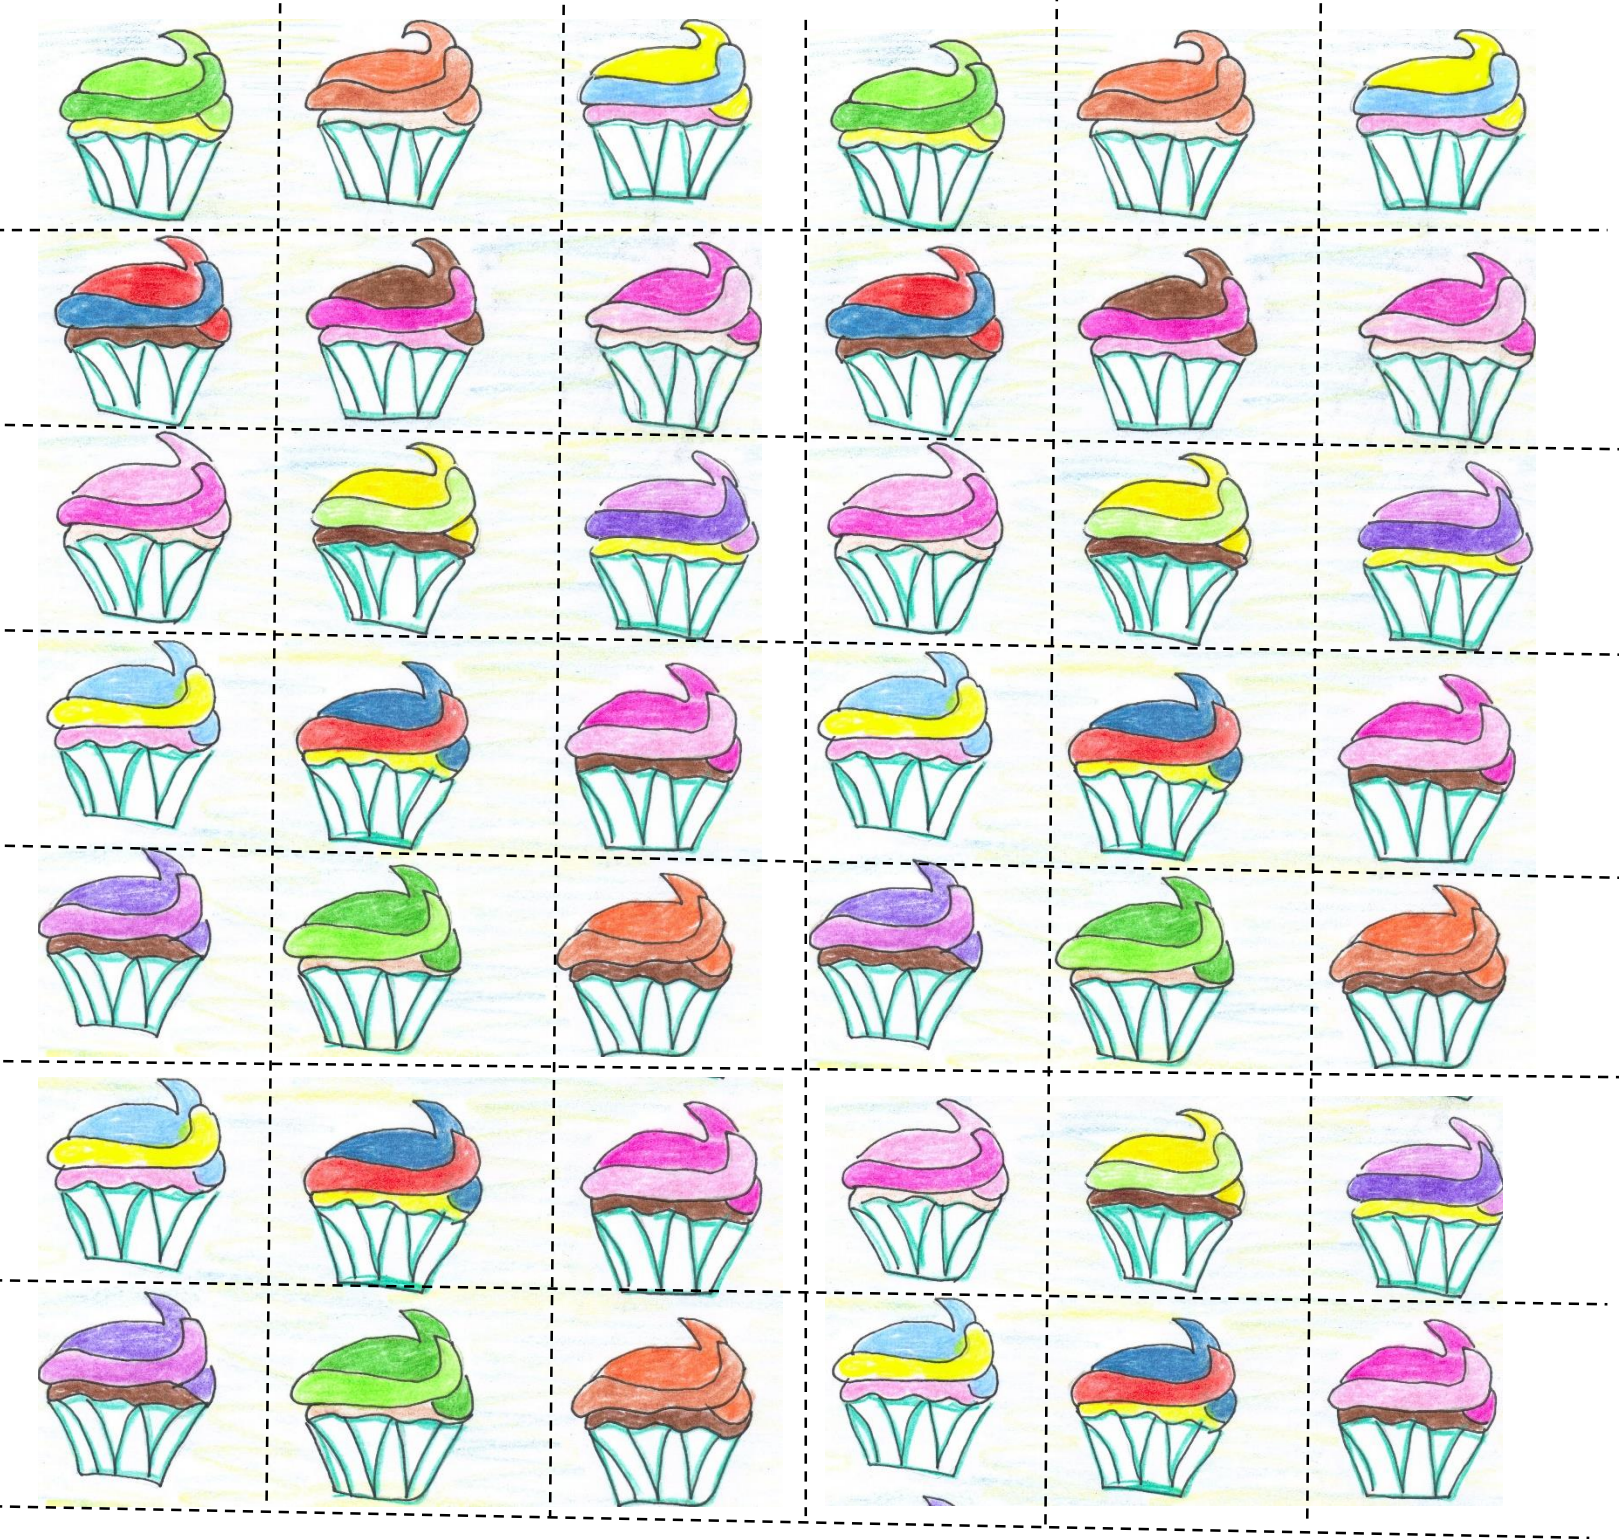

After reading and discussing the children's book, "Matthew's Sunshine Bakery, Multiplication Arrays," children may work on this fun activity to practice arrays.

Directions

- ♥ Run off the cupcake cards and have children cut them out.
- ♥ Have them use their cupcakes to create their own array on their tray sheets.
- ♥ After filling out their array information, have them fold their sheet so that the bottom portion is not seen. Leave their array papers on their desks.
- ♥ Children walk around the classroom (desk to desk) identifying each array's equation and then checking their answers by unfolding the paper.
- ♥ An alternative activity would be for each child to make several different arrays and stapling them into a booklet.

(Sample) Here is my bakery tray array ...

$$4 \times 5$$

or $5+5+5+5$

I have cupcakes!

Here is my bakery tray array ...

_____ x _____

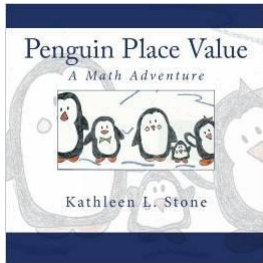

or _____

I have

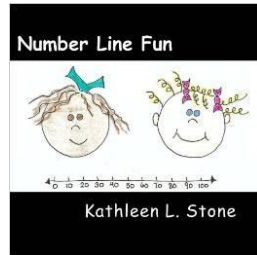

cupcakes!
